FOR THE NEW YORK'S TRIAL.

ORDERS AS TO THE OFFICIAL TEST.

SECRETARY HERBERT GIVES EXPLICIT IN-STRUCTIONS TO THE BOARD OF EXPERTS. Washington, May 8.-Secretary Herbert to-day issued formal orders and instructions to a board of naval officers to convene in Philadelphia on Wednesday for the purpose of witnessing and reporting upon the official trials of the New York. lected is composed of Rear-Admirat Belknap, Commanders Cooper and Goodrich, Lieutenant Commander Hemphill, Lieutenants McLean, Niles, Reamy and

McCrea, Naval Constructors Feaster and Woodward, and Ensigns Buchanan and Washington. A special hoard consisting of Chief Engineers Thompson, Mc-Nary and Chasmar has been detailed to observe the working of the machinery of the vessel. A number of junior engineer officers to record and compute data have been ordered to rep rt for duty with these boards. The duties of the general board will be to determine whether the vessel is sufficiently strong to carry the armament, equipment and machinery indicated in plans; whether her hull, engines and fittings are in strict conformity with contract requirements, and as to the readiness of the vessel in all respects for delivery. The naval constructors on the board are directed to make a careful examination of the work done on the hull and fittings of the ship.

After the vessel has been weighted to a mean draft of twenty-four feet she will proceed to the vicinity of Cape Ann for the purpose of determining her speed by runs over a measured course of forty nauti-cal miles between Cape Ann and Cape Porpoise. The vessel will go over this course twice, unless the contractors should be dissatisfied with the results, in which case a second series of similar runs, may be made, and any two consecutive runs in opposite directions under certain restrictions be selected. The board's instructions provide that tidal effects on speed observed, and that the steam must not under any circumstances be even partially shut off while the ship is off the course. is also instructed to observe and report in detail upon the performances of the ship as to steadiness, seaworthiness and steering qualities. The Bennington and the Vesavius, and the tugs Leyden, Fortune and Nina have been finced at the disposal of the board to render all necessary assistance during the trials. There appears to be little doubt as to the general good qualities of the New-York as a seaboat, and the

interest in her trials is chiefly as to her speed. To determine this quality secretary Herbert's orders are particularly explicit. Indicator cards of the engines particularly explicit. Indicator cards of the engines showing the working will be taken every half hour, and the revolutions of each engine are to be carefully counted at the moment the indicator cards are taken. Provision is made for observing the horse-power of the engines, but this computation does not enter into the results of the official trials. The whole object of the report is to give the department the fullest possible knowledge of the working of the machinery, and the engineer members of the board are particularly instructed to submit opinions as to whether the performances of the engines, hollers and appurtenances are strong and efficient and in accordance with contract requirements.

A WARSHIP MAY BE SENT.

THE NICARAGUAN REVOLUTION ASSUMES A SERIOUS ASPECT.

Washington, May 8.-The serious aspect of the revolution in Nicaragua will probably result in the United States sending a war vessel to the west coast of the country. Such action is being considered by Secretary Gresham, and if the revolution assumes the proportions that now seem imminent he will request Herbert to send a ship to scene of the trouble. No information has been received at the State Department concerning the uprising since Consular Agent Helman informed Mr. Gresham late last week that a serious revolt had occurred. Newspaper attrounts have, however, shown the Administration that the uffair is of no mean dimensions.

It is probable that the question of sending a vessel to Nicaragua will be discussed at the meeting of the Cabinet to-morrow. An unusual number of vessels are available for sea service, on account of the pres ence in home waters consequent on the naval review. but in the event that it is decided to send a ship, the Atlanta will doubtless be selected. She is in New-Atlanta will doubtless be selected. She is in New-York, and can be made ready for the journey in four-hours. It has always been customary for the Gov-erament to send a naval vessel to Central America when any serious internal dissensions have taken place, on account of the large interests of United States citizens in nearly all those countries. An additional reason for sending a vessel to Nica-ragua at this time is that the United States is left without a diplomatic representative at the Nicaraguan capital, on account of the exchange of Ministers fol-lowing the incoming of a new Administration.

Diaz to recall Minister Romero and reinstate him at the head of the Treasury Department was shown to the Minister to-day. Mr. Romero said that he had no infernation of recent date respecting the intentions of his Government in this regard. He still holds the two positions of Secretary of the Treasury and Minister to the United States. Mr. Limantour, who is erroneously stated in the telegram to be present Secretary of the Treasury, is the Assistant and Acting Secretary in ence of Mr. Romero. When the Minister returned to Washington some weeks ago, after an absent of nearly a year, it was stated that his place in the Cabinet had not been filled, and that he would probably go back to the City of Mexico. Nothing has occurred to change that probability in any way, but President Dlaz has not yet indicated when Mr. Romero will be recalled.

TO INVESTIGATE THE TERRITORIES.

Washington, May 8, Senator Faulkner, chairman of the Committee on Territories, has selected, in addition to himself, Schators Hill, Platt, Bate and Davis as the sub-committee to investigate the condition of the Territories now seeking admission to the Union. Senators Bate and Davis cannot go, but the rest of the committee, accompanied by Assistant Sergeant-at-Arms Reade, will start from Chicago on June 10 and be gone about five weeks. ---

THE SPIRIT OF CIVIL SERVICE RULES VIOLATED. Washington, May 8.-The attention of President Cleveland has been called to the removal of Mr. startevant, chief of the stationery department of the Treasury, by several members of the New-York and Massachusetis Reform clubs, as a violation of the spirit of the Civil Service roles. Mr. Sturtevant entered public service when a minor, and never voted in his life. No imputation of any kind has ever been cast upon his integrity or his marked efficiency. Givil Service Commissioner Roosevelt is taking an interest in the case.

MR. MATTHEWS GOING BACK TO THE LAW. Washington, May 8 .- Mr. Matthews, late First Controller of the Treasury, will leave this city for Illinois to resume the practice of law. Mr. Bowler, his successor, will assume his duties about May 10. Judge Matthews desired to retire a month ago, but until Saturday could not get his resignation accepted. Third Auditor Hart is tired waiting for the President to appoint his successor, and will leave here for his home in Indiana on Wednesday.

APPOINTMENTS BY THE PRESIDENT.

Washington, May 8.—The President to-day an-nounced the following appointments: II, W. Smith, of Utah, to be Associate Justice of the Supreme Court of the Territory of Utah; Everett E. THE CHINESE TEST CASES. RECORDS OF THE NEW-YORK PROCEEDINGS FILED IN WASHINGTON-AN EARLY

DECISION EXPECTED. Washington, May 8 .- The records of the preceedings in the Federal Courts in New-York on saturday, in what are known as the Chinese Excusion cases, were filed to-day in the Supreme Court, by T. D. Riordon, of San Francisco, counsel for the "Six Companies." These are the cases in which petitions are made for the issuing of writs of habeas corpus in behalf of Chinese arrested and held by John W. Jacobus, United states Marshal for the Southern District of New-Yerk. The petitioners are Fong Yus Ting, Wong

The record in the case of Lee Joe shows that it is intended to test a separate point in the law, or at least a construction of the law made by the Collector of Internal Revenue in New-York. The Collector refused to accept a Chinese witness as to the identity of Lee Joe when the latter applied for a certificate The law requires the evidence of a white witness in court, but is silent as to the nationality or racial characteristics of witnesses before the Collector, and it is said this point will play no unimportant part in the proceedings.

The briefs of the counsel in the case, because of

the short time allowed for their preparation, are not yet in print, and probably will not be until Wednes-Solicitor-General Aldrich will represent the day. Solicitor-General Aldrich will represent the government in the argument before the Supreme Court upon the appeal from the judgment of the Circuit Court, and Joseph H. Choale, of New-York, and J. Hubley Ashton, of Washington, the petitioners. T. D. Riordan, of San Francisco, and Maxwell Exarts, of New-York, assisted in the preparation of the cases in the court below for the Chinese. A decision in the case is expected to be announced next Monday.

NAVAL OFFICERS EASTWARD BOUND.

RETURNING IN A SPLENDID TRAIN OVER THE PENNSYLVANIA ROAD.

Fort Wayne, Ind., May 8 (Special).—The visiting naval officers left Chicago over the Pennsylvania road for New-York about 5 p. m. this afternoon, and will reach the metropolis at 7:30 o'clock to-morrow evening. They have been most lavishly entertained is Chicago, and undoubtedly the foreigners will go home with the impression that Chicago is the greatest city that the world ever possessed or ever can have. Lieu tenant John C. Fremont, who, representing Admiral Gherardi, is in charge of the party, has been too hard at work all the time of the tour to feel that he has had a holiday. Although he has said little about it, he has been much fretted by the action of the World's Fair people in Chicago, who have with great persistency tried to make the naval contingent a valuable advertising adjunct to the Columbian show Lieutenant Fremont yesterday fully determined, after receiving orders from Admiral Gherardt, to adhere to the original schedule and start for home at 5 p. m. The naval officers, with this understanding, went off to President Higinbotham's breakfast in the Music Hail on the World's Fair grounds. After they had reached the hall Lieutenant Fremont, who had remained behind to arrange the details of the home ward transportation, received an unexpected telegram saying that the special Pullman train over the Pent sylvania road would not leave the station until 10 35 p. m. The reason of this was that several of the principal men connected with the World's Fat thought it would be a good thing to have the nava officers present as a valuable advertising attractie on the grounds to-night. This is the first night the electrical illumination. Lieutenant Fremon promptly squelched the irregular proposition, and ti train departed promptly on schedule time

GAMES YESTERDAY. Brooklyn 7, New-York 4. | Entlimers 4, Philadelphia 2, Roston 9, Washington 3, | Pitt-burg 9, Cincinnati 8, At Louisville and St. Louis rain.

In the presence of six thousand people, most of them cheering and enthusiastic partisans of the victors, the Brooklyn ball team yesterday defeated the New-York team by 7 to 4. All the conditions were favorable for plaving of a high order. The weather was clear, the sun shone brightly on the green diamond of Fastern Park, and a smort breeze a bit cold but invigorating, blew straight across the fields from the blue waters of Janudea Bay. It was the first meeting of the representative nines of New-York and Brooklyn. While the followers of the Giants were outnumbered by the friends of the Bridegrooms by five to one, they showed great glice whenever their favorites made a good play, which, and as the confession , was not often. There was something the matter with uste, the Giants' Hoosier pitcher, who generally frightens the Bridgrooms half to death as soon as he steps into the bux. Rusie was so badly mixed up in the sixth inning lox. Rusie was so badly mixed up in the sixth luning that he did not know where he stood for several minutes. Tiernan and Ward also showed up poorts. Pavis, Fellier and Doyle did the test work for New-York. Stein pitched a elever game, his change of pace being especially clever. After the game the New-Yorkers were much put out, declaring that the game ought to have been easily won by them. The substitution of Keeler for Lyons in centre field did not meet popular favor. Lyons's tatting to date has been for above that of most of the men on the team. His fielding certainly could be improved upon. Ward will make a mistake if he allows a few "cranks," who know nothing about the intricate workings of baseball, to influence his better indement. These "cranks" beiong to influence his better judgment. These "cranks" belong to the small minority which thought that the New-York team

New-York players declare that an oiled ball was out in the name in the seventh inning. This may have caused the loss of Stein's effectiveness in the seventh inning. How the ball was offed, or who did it, is not known. Some thought that a mischevious small boy had captured a ball which had gone over the fence, and rubbed all or grease upon it before throwing it back. The two teams play at the Polo Grounds to-day.

teams play at the Polo Grounds to-day.

The New-Yorkers were sent first to the ban and they were put out in one, two, three order. The Brooklyn men were more fortunate, and scoring a run, took the lead. Griffin was hit with a pitched bell and Russle's wild pitch was destined to be costly. Fut, sacrifficed criffin to second and Burns's hit past short brought him home, the Brooklyn enthusiasts howling right merrily Burns had done the damage and he retired from the gene.

FOR A CANOE-MEN'S ENCAMPMENT.

Fifteen came men, representing clubs along the Passals River, and including the camp-site committee of the As-sociated Came Clubs of the Passals River, visited Dundee Lake on Sunday and inspected the proposed camping ground. The choice of the committee was confirmed, the place selected giving a view along the lake for half a mile making it especially desirable as a place to view the races. The encampment begins on May 27, and will last form days. A large dwelling-house near the lake will be secured for use during the chean-ponent, in which cluts from Newark, Hoboken, Yonkers, Rayonne, Arlington, Orange, Rutherford, Passate and Paterson will take part.

ARRANGEMENTS FOR THE LEAGUE CONVENTION

-CANDIDATES FOR THE CHIEF OFFICES. Louisville, Ky., May 8. De'egates to the conven tion of the National Association of Republican Clubs, the Convention of the American Republican College Association, the National Tariff League and members of the Republican National Committee are arriving here rapidly. Among this morning's arrivals were President James s. Clarkson, of the League; J. II. Manley, of Maine; G. A. Hhbart, of New-Jersey; L. Stewart, of New-York, and David Martin, of Pennsylvania. These came on a special train from Philadel phia and were accompanied by a number of Philadelphians. W. f. Squire, a candidate for president, to succeed Mr. Clarkson, arrived this morning, as did also President James F. Burke, of the College League National Vice-President E. C. Camp, of Tennessee H. H. Clawson, of Salt Lake City; Secretary A. B. Humphrey, of New-York, and Frank McQuaid, of Sar Francisco.

The convention of the Kentucky State League to select representatives to the National League will be

held to morrow. Secretary Humphrey has been looking after the details of the coming convention and prendunces the local arrangements satisfactory. The League convention will be held in the McCauley Theatre, and the great National muss-meeting in the Phoenix Hill Fark a Wednesday evening. Telegrams and letters are

pouring in to National headquarters at the Galt House, announcing large delegations on the way, A special boat with 300 delegates is on the way from fitt-burg. Once, Indiana and Illinois will send on Tuesday from 200 to 300 delegates and visitors. It is generally understood here that Presiden Clarkson and secretary Humphrey will not be can didates for re-election, as they are both extensively engaged in business enterprises. The secretary says this promises to be the most successful National Lergue convention ever held. He predicts a large

interest is centring in candidates for the presi dency of the League, and friends of W. W. Tracy, of Hilmets; Colonel E. A. McAlpin, of New-York; W. L. squire, of Ohio, and W. L. Taylor, of Indiana, are already here, looking after the laterests of their favorites. The names of General Russell A. Alger, ex Governor J. B. Feraker and J. Sloat Fassett, are frequently mentioned as possible candidates for the presidency.

DELEGATES GO TO LOUISVILLE.

The delegates from New-York City, Long Island and Staten Island to the convention of the National League of Republican Clubs, at Louisville, left this city yesterday about noon by way of the New-York Central Railroad. There were about twenty-five delegates. They were accompanied by a number of party workers, and by delegates to the College League Convention, which meets on Thursday after the meeting of the National League Convention. The train was to stop at Poughkeepste, Albany, Syraeuse, Buffalo and other places in the State to take on board delegates from those places. At Syraeuse a special train will be made up to take them the rest of the way.

PROOKLYN REPUBLICANS TO ENROLL TO NIGHT. The enrolment of the Republicans of Brooklyn for

the formation of election distrect associations and the designated for the enrolling of names from 7 to 10 p. m., and committees have been appointed to supervise the curolment. The opnertunity is now afforded to the 70,000 Republicans who voted last fall to take an active part in all party matters by selecting their own representatives, who shall take control of party attairs and in the nomination of candidates. All that is necessary is to enroll, and thus secure the qualification essential to voting at the primaries. The only serious opposition to the new system has appeared in the Eighteenth and Twenty-third wards. In the former the men in control of the ward association, led by F. F. Williams, refused to have anything to do with the new system. In the Twenty-third Ward Ernst Nathan and his leading followers have decided not to enrol, and will have nothing to do with the new system. They have their opposition to what they claim has been the violation of the regulations governing the has been the violation of the regulations governing the new e-roiment by W. J. Butting, president of the General Committee. They say that he did not inform the president of the ward association of the names of the men appearance to take many of the enrolment, and did not leave it to the men appointed to choose the places of enrolment, and have them certified to the president of the ward association. It is be-leved, however, many names will be enrolled in the Twenty-third Ward, and that Mr. Nathan and his triends with be wholly left out of the new organization.
